

Data Flow Diagrams & User Stories

Date: 18 June 2026
Team ID: Banka Akshay Kumar Reddy
Project Name: ShopEZ (E-Commerce Platform)

Detailed User Stories and Acceptance Criteria

User Type	Epic Category	USN	User Story	Acceptance Criteria	Priority	Release
Customer	Authentication	USN-1	As a user, I can register a new account and log in.	Passwords must be hashed in the database. Upon login, a JWT token is stored in localStorage.	High	Sprint-1
Customer	Shopping Journey	USN-2	As a user, I can browse the catalog and filter products.	Products display correctly on mobile and desktop. Categories correctly filter the displayed list.	High	Sprint-2
Customer	Cart Management	USN-3	As a user, I can manage my shopping cart and proceed to checkout.	The cart icon updates its counter instantly. Cart contents persist during the session. Orders are saved accurately.	High	Sprint-3
Administrator	Inventory Dashboard	USN-4	As an admin, I can manage the entire product catalog from a web interface.	Admin can successfully add new products, edit existing prices, and delete discontinued items securely.	High	Sprint-4
Administrator	Order Tracking	USN-5	As an admin, I can view and update customer order statuses.	Admin can see a list of all incoming orders, view shipping details, and mark them as shipped or delivered.	High	Sprint-4
